The Car Rental System (CRS) Home Page is the main entry point for users, featuring a user-friendly interface with essential options. The navigation menu prominently displays two key options: **User** and **Admin**, allowing individuals to either register/login as a user or log into an admin account.

## User Registration:

To start using the CRS as a customer, users need to create an account. Here's the process:

- **Navigate to the User registration page.**
- **Fill in the required details**, such as email.
- **Choose a secure password.**

Upon successful registration, users will be redirected to their respective dashboard.

**Note:** Admin registration is restricted for security purposes, only designated personnel have admin accounts.

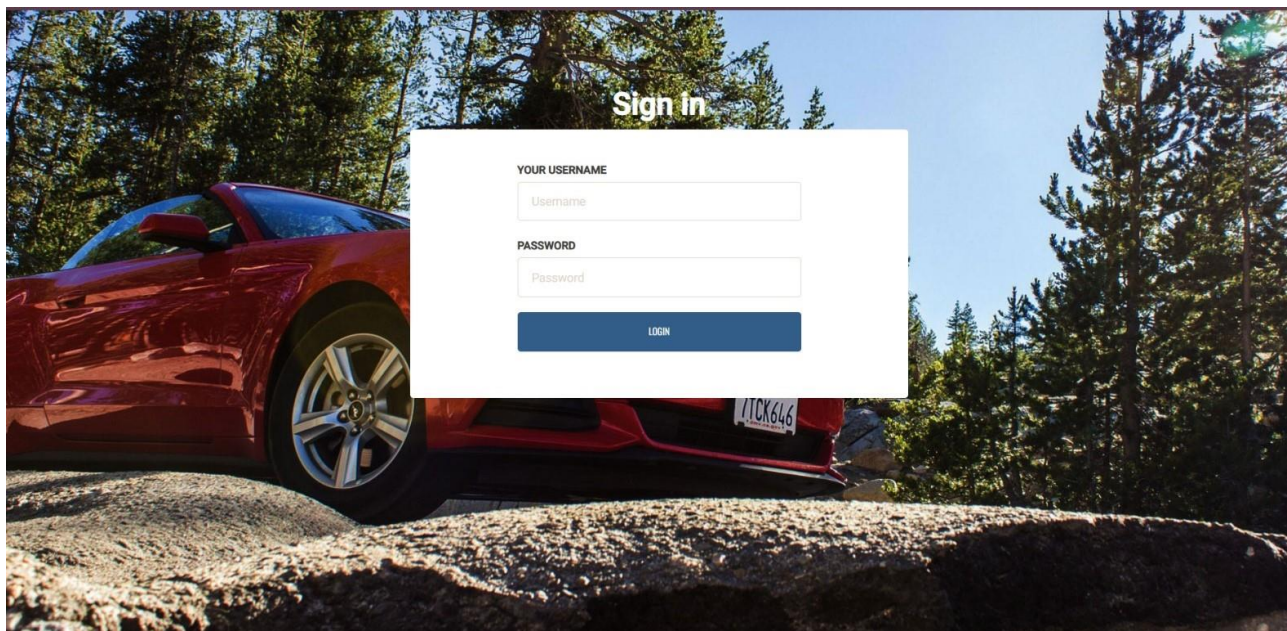

# Login

Login

Don't have an account? [Signup Here](#)  
[Forgot Password ?](#)

## Admin

Already registered users can log in using their credentials:

- Go to the admin page.
- Enter the registered username and password.
- Click the login button

If there are any errors during login/sign in form validation, relevant **error messages** will be displayed to guide the user.

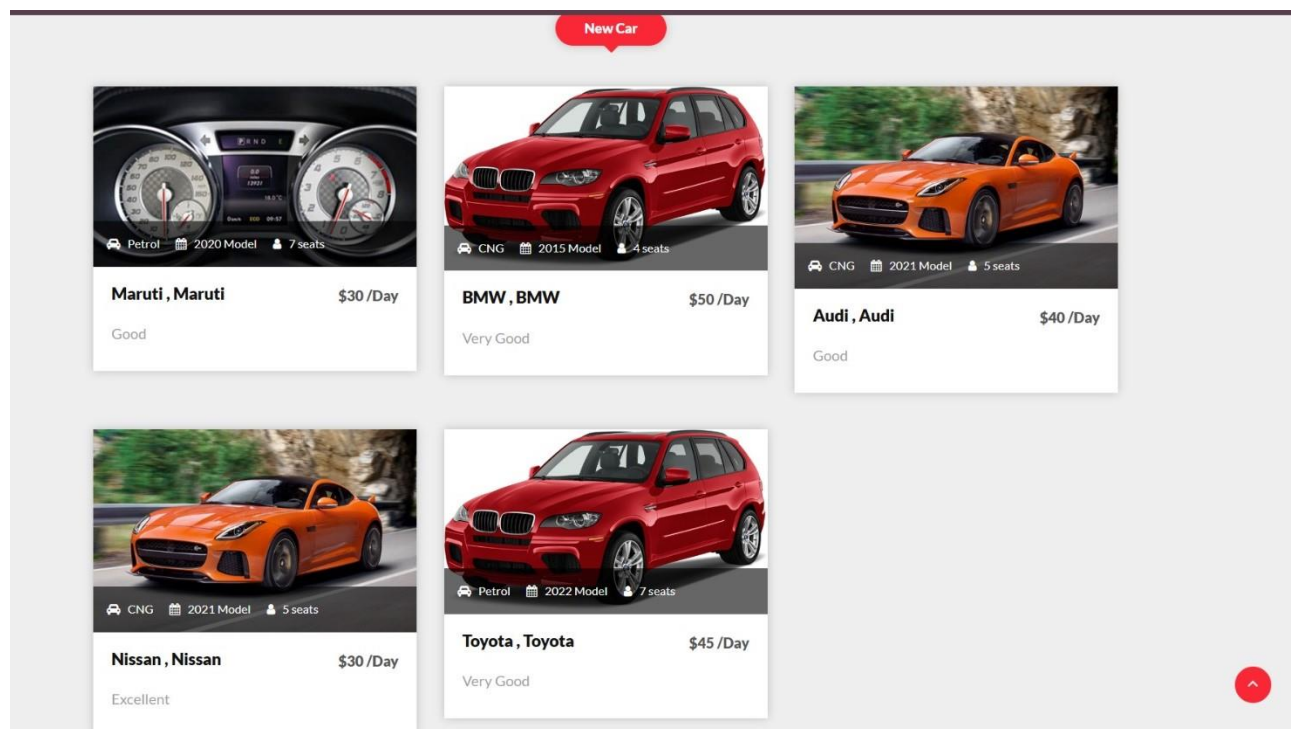

Access to the user-specific dashboard will be granted upon successful login.

## Dashboard Page for users

### Overview

Upon successful login, users are directed to their personalized Dashboard, tailored to their specific role to customer. The dashboard offers a streamlined, user-friendly interface with unique features based on their roles.

- **Customer Dashboard:** Customers can browse available vehicles, make reservations, view their booking history, and manage account details.

Admins can offer their vehicles for rental by scheduling availability and providing essential vehicle details, such as model, condition, and rental rates. This information is forwarded to the Admin Dashboard for review. Admins assess the vehicle details and availability, approving or rejecting based on condition and demand requirement.

## Rental and Vehicle Offer History

Users can access a consolidated history of their rental-related activities.

- For Customers: This includes reviewing past vehicle rental requests, with details on status, dates, and vehicle information.
- For Admins: This includes a history of vehicles offered for rental, with information on approvals, rental periods, and booking status.

This history provides users with easy access to past activity records for reference and management.

**For Customers:** Customers can track their rental history, viewing the status and details of each booking, including dates, vehicle information, and payment status.

**For Admins:** Admins can monitor their vehicle rental history, with insights into rental dates, customer details, and payment status for each booking.

The user-centric dashboard is designed to cater to the specific needs and actions associated with each role, providing a seamless and intuitive experience for both customers and drivers.
